XM radio is the best thing to ever happen! They provide a higher quality service for a reasonable price! Something that NAB can't do! I want my choice, and freedom to choose. Please reject petition 04-160. It will force more competition and alleviate a monopoly. The FCC needs to work on what the future wants. My generation is the future, and we want freedom of choice as well as uncensored broadcasting. Let the truth be told! Reject NAB's petition.

Thanks in advance,
Jeffrey Pudelski
